Team ID: SWTID-2026-5919

Project Name: Script-Controlled ACL – Restrict Record Access Based on Field Value

PERSONA

Name: ServiceNow Student Record User

Role / User Type: Authorized ServiceNow User

SAYS

- “I want to access only the records I am authorized to view.”
- “I need access based on my role and branch.”
- “I want my student records to be secure.”

THINKS

- “Only authorized users should be able to access student records.”
- “Different users should have different permissions.”
- “Unauthorized users should not be able to view or modify records.”

DOES

- Logs in to ServiceNow and accesses student records.
- Uses the system according to the assigned role.
- Views, creates or modifies records according to permissions.

FEELS

- Concerned about unauthorized access.
- More secure when access is properly controlled.
- Confident when only authorized records are accessible.
