

Team Involvement in Demonstration

Date: 15 March 2026

Team ID: SWTID-2026-5919

Project Name: Script-Controlled ACL – Restrict Record Access Based on Field Value

Maximum Marks: 1 Mark

Team Involvement in Demonstration

The team members participated in the project demonstration by presenting the different components of the ServiceNow ACL implementation. Responsibilities were distributed across project introduction, table and role configuration, ACL implementation, testing, and final workflow demonstration.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation
1	V. Abitha	Team Leader / Coordinator	Project Overview & Workflow	Introduced the project objective, explained the overall ACL workflow, and coordinated the demonstration.	Active
2	T. Archanadevi	Presenter	User & Role Configuration	Demonstrated the EEE User creation and configuration of the bb1, bb2, bb3, and bb4 roles.	Active
3	T. Akalya	Presenter	Custom Table Configuration	Demonstrated the u_institution_details table and explained its fields and configuration.	Active
4	M. Kishor Banu	Presenter	READ & CREATE ACL	Demonstrated the READ ACL and CREATE ACL configurations and explained role-based access.	Active
5	T. Atchaya	Presenter	WRITE, DELETE & Verification	Demonstrated the WRITE and DELETE ACLs and explained the final access verification process.	Active

Team Coordination Notes

Aspect	Details
Team Leader / Coordinator	V. Abitha
Overall Team Coordination Rating (1-5)	5
Any issues during demo	No specific demonstration issue is documented in the project source.
How issues were resolved	Not specified in the project document.

Demonstration Summary

The demonstration covered the major components of the project, including user and role setup, creation of the Institution Details custom table, and implementation of READ, CREATE, WRITE, and DELETE ACLs. The final verification demonstrated role-based and field-based access control for ServiceNow records.

Note: The individual demo section allocations above are a prepared presentation plan; the project source identifies the five team members and team leader but does not document individual presentation assignments.
